OBJECTIVE

I am actively seeking a role as a Software engineer (Frontend Developer using React), aiming to play a key role in the success and growth of the company. My goal is to contribute my skills, foster innovation, and continually enrich my expertise on this professional journey.

EDUCATION

- **Computer and information Science**, Cairo University (2019-2023)
(Information Systems) Department, Grade B+.

EXPERIENCE

- **Software Engineer, Huawei** (Jul 2024 – Present)
- **Frontend Developer , مستقل** (Jul 2022 – Present)

Responsibilities include proficiently handling diverse tasks such as building applications from scratch, executing Full stack and frontend web projects.

TECHNICAL SKILLS

- ReactJS / React-Typescript
- HTML
- CSS / SCSS
- JavaScript (JS) / TypeScript
- Bootstrap
- Tailwind
- Redux / React-Router
- Redux Toolkit
- Database: SQL , MongoDB , and Firebase.
- Additional Backend Skills (Node js , Express js) .

PROJECTS

- **Full Stack Social App**
Designed a social networking application with real-time messaging and social connectivity features.
- **Full Stack E-commerce**
A flutter application that Pharmacies can join to get orders from users and feedback and rating using our sentiment analysis model with some additional functionalities, as the nearest Pharmacies to user.
- **ihrsaudi**
Created a web platform for HR solutions, streamlining recruitment processes and employee management.
- **E-commerce**
Built an e-commerce website, offering a seamless online shopping experience with secure payment options.
- **Graduation Project (sany3y)**
Collaborated on a significant project as part of your graduation requirements, demonstrating your problem-solving abilities.

LANGUAGES

- **Arabic** (Native)
- **English** (intermediate)
